

RFID PROGRAMMING

AND SECURITY

RADIO FREQUENCY IDENTIFICATION

How To Proceed With The Course

01-Understanding RFID

02-Quick Overview of Arduino

03-Working with HF RFID Cards Using Arduino

04-Understanding Mifare Classic RFID Tags

05-Reading Writing Mifare Classic Using (ACR122u)

06-Reading Writing Mifare Classic Using (MFRC522-STM8)

07-Finding Vulnerabilities in Mifare Classic Using ProxMark3

08-Final Project

How To Proceed With The Course

01-Understanding RFID

04-Understanding Mifare Classic RFID Tags

05-Reading Writing Mifare Classic Using (ACR122u)

06-Reading Writing Mifare Classic Using (MFRC522-STM8)

02-Quick Overview of Arduino

03-Working with HF RFID Cards Using Arduino

07-Finding Vulnerabilities in Mifare Classic Using ProxMark3

08-Final Project
